## Peak IP Solutions Achieves Cisco Premier Certification from Cisco in US

**Livermore, CA – April 20, 2009** – Peak IP Solutions announced today that it has achieved Premier Certification from Cisco®. To earn Premier Certification, Peak IP Solutions had to meet standards for networking competency, service, support and customer satisfaction set forth by Cisco.

“Peak IP Solutions Premier partnership with Cisco enhances our position to provide a comprehensive, unified portfolio of communications solutions to our customers. This certification is a testament to the dedication of our team to provide customers the highest standards in networking products, services and support” said Doug Renner, Founder and CEO of Peak IP Solutions.

“Cisco is committed to providing tools, training and programs to help drive partner growth, differentiation and profitability,” said Surinder Brar, senior director of worldwide channels at Cisco. “With specializations in SMB, Express Foundation and Customer Satisfaction Excellence, Peak IP Solutions has made an investment in delivering the integrated and customized technology solutions today’s customers demand.”

As a Cisco Premier Certified Partner, Peak IP Solutions demonstrates a range of technical expertise. To achieve Cisco Premier Certification Peak IP Solutions was required to achieve the Cisco Express Foundation Specialization. This specialization includes tests on technical competency in the integration of basic routing and switching, wireless LANs, and security technologies. In addition, Peak IP was required to integrate a base level of Cisco Lifecycle Services into their offerings and demonstrate measurably high levels of customer satisfaction based on independently audited customer satisfaction surveys.

The Cisco Resale Channel Program provides partners with the training required to build sales, technical and Cisco Lifecycle Services skills. Cisco resale partner certifications—Gold, Silver, Premier and Select—represent an increasing breadth of skills across key technologies and a partner’s ability to deliver integrated networking solutions. Cisco resale partner specializations—Master, Advanced and Express—reflect an increasing depth of sales, technical and service expertise in particular technologies.
