Peak IP Solutions Achieves SMB Specialization from Cisco in US

Livermore, CA – April 20, 2009 – Peak IP Solutions announced today it has achieved SMB Specialization from Cisco®. The SMB Specialization recognizes Cisco resale channel partners whose primary focus is on the small and medium-sized business (SMB) market with fewer than 250 employees.

“Peak IP Solutions is pleased to have Cisco as a strategic partner allowing us to enhance our service offering and value to our clients”, said Doug Renner, Founder and CEO of Peak IP Solutions. “Cisco’s high-performance, industry leading networking products in unison with Peak IP Solutions’ highly skilled engineering team and excellent customer service allow us to be at the top of our game. This recognition from Cisco is a result of our continued commitment to maintaining the highest level of expertise in our field. Peak IP is dedicated to offering it’s customers the best custom solutions to allow them to focus on their core business.”

“The Cisco SMB Specialization was created in response to customer demand for channel partners to be capable of designing and implementing SMB-specific Cisco solutions,” said Surinder Brar, senior director of worldwide channels at Cisco. “With the SMB Specialization, Peak IP Solutions has made an investment in obtaining the training, skills and knowledge necessary to play a pivotal role in meeting this increasing demand.”

To earn SMB Specialization, Peak IP Solutions fulfilled training and exam requirements. Peak IP Solutions also met the personnel, training, and post-sales support requirements set forth by Cisco.

The Cisco Resale Channel Program provides partners with the training required to build sales, technical and Cisco Lifecycle Services skills. Cisco resale partner certifications—Gold, Silver, Premier and Select—represent an increasing breadth of skills across key technologies and a partner’s ability to deliver integrated networking solutions. Cisco resale partner specializations—SMB, Express, Advanced, and Master—reflect an increasing depth of sales, technical and service expertise in particular technologies.
